

Khalid Salman-yusuf

Software Engineer (Frontend) | Javascript | Vue

F.C.T/Abuja

olaniyisal@gmail.com

+234 808 326 2539

I am a software engineer with a focus on frontend development, and I specialize in building dynamic user interfaces using Vue.js. I have a strong foundation in HTML, CSS, and JavaScript, which enables me to create responsive and visually appealing designs. I am a problem-solver with a keen attention to detail, which ensures that the user experience is both seamless and enjoyable. My passion for learning and growth drives me to stay up-to-date with the latest frontend technologies, and I am always eager to take on new challenges and expand my skillset.
